DuPont™ Great Stuff™ Pro All Seasons

DuPont™ Great Stuff™ Pro All Seasons Gun Foam is a moisture-cured, single-component, polyurethane, **foam sealant, designed for use in low temperature application conditions** and under extreme weather conditions.

Adheres to most common building materials including wood, concrete, wallboard and plastic, except smooth surfaces of polyethylene, silicone, oil and grease or similar substrates.

- ▶ Can be used at temperatures from -10°C to +35°C.
- ▶ Excellent thermal insulation properties.

- ▶ It is resistant to temperatures from -55°C to +80°C.
- ▶ Low expansion.

DuPont™ Great Stuff™ Pro All Seasons is ideal for PVC, aluminium and wooden window and door installation as well as it can be used to fill holes, gaps and cavities in a variety of building materials.

The foam is also designed to reduce and control air leaks in the building envelope and sound transmission.

NEW

DuPont™ Insta Stik™ Flex+

Permanently flexible, durable foam for **airtight sealing of windows and doors** that does not require the use of internal tape or liquid flashing.

- ▶ Highly efficient longterm airtightness.
- ▶ Decrease time and materials required for airtight installation.
- ▶ Fast curing formulation improves efficiency on site.
- ▶ Increased fire performance.
- ▶ Patented technology.
- ▶ 25 year warranty.

High flexible, airtight and durable throughout the entire service life.

DuPont™ Insta Stik™ Flex+ is a moisture-curing, fire-resistant, single-component polyurethane foam. It is mainly used for the permanent, airtight installation of windows and doors.

Thanks to its impressive flexibility, it copes with the movements of the window frame caused by temperature changes and wind load without compromising the airtightness. In addition, the sealing foam has good acoustic and thermal insulation properties.

Certified highest airtightness class 4, at 600 Pa according to standards EN 12207:2016 and EN 1026:2016, reached without of internal tape." (ITB: KOT – 2023/2465 issue 1).

NEW

DuPont™ Insta Stik™ Multi-Purpose Fast Cure

Multipurpose, low expansion, fast cure, polyurethane foam adhesive, which has been specifically developed for **vertical and horizontal bonding** of XPS, EPS, PIR, PUR foams, mineral wool and plaster boards to concrete, brickwork, plaster, stone, wood, metal and bituminous or fleece-backed membranes.

▶ High efficiency: one can (750 ml) cover up to 15 m² of surface.

▶ Improves the thermal insulation coefficient of the facade system.

▶ Clean to use – leaves no dust or residue during installation.

▶ Fast curing formulation improves efficiency on site.

▶ Fast preparation and easy installation reduces labor and material costs.

▶ Provides a robust and durable bond.
